

A LEGACY of LEARNING for the Children of Tunkhannock

Since 2017, Tunkhannock Area School District (TASD) students have been enjoying remarkable educational enhancements thanks to the Tiger Fund for Excellence, and more recently to the Tiger Endowment Fund. The purpose of these complementary financial tools is to identify and privately fund worthwhile extracurricular, co-curricular, and STEM related projects which are not funded through the district's operating budget. Popular Tiger Fund dinners and auctions have raised hundreds of thousands of dollars to offer students learning experiences above and beyond the basic curriculum. Here are some of their projects:

- Drone Cameras
- Robotics Club Equipment
- Upgraded Light and Sound Equipment for Drama Club
- Exercise Equipment for Weightroom
- Trout in the Classroom
- Aquaponic Greenhouse

Two dynamic leaders in the effort have been Dr. Bill Prebola and Robert Brown, CFP who have rallied many other local business owners, professionals, alumni and families with children in the district. Together they are building an educational legacy to enrich the lives of generations of Tunkhannock students.

Dr. Bill Prebola

Robert Brown, CFP®, CEPA®

“The good education of youth has been esteemed by wise men in all ages as the surest foundation of the happiness both of private families and of commonwealths.”

BENJAMIN FRANKLIN
